The United States new Lockheed XFV-1 vertical take-off plane powered by turbo-prop engines, driving contra-rotating propellers, is designed to fly straight up, level off at the desired height and then to back down, tail first. The photo

above shows Herman R. Salmon, Lockheed test pilot, as he climbs the portable ladder to enter the cockpit. Wheeled framework around the plane is the lift mechanism which hoists it onto its tail in take-off position.

OUTLOOK FOR THE 1954 SEASON

This is the time of year when predictions are prevalent over prospects for the coming season. Over the prairie provinces moisture conditions appear to be somewhat under average, with Alberta being slightly worse off in that respect than Saskatchewan and Manitoba. Precipitation in Alberta last autumn was very limited, particularly in the south.

It has been suggested that the drought which has been prevalent in areas of the United States midwest may move northward this year. After several years of good rainfall in the growing season the Canadian prairies may be entering a drought circle. But nobody knows and predictions are merely guesses.

If abundant and timely rains occur during the month of June there will be good crops in Western Canada. June and early July is a critical period in the crop season.

Through The Study Window

By REV. C. C. ARMSTRONG

The other day I bought my new licence plates, and was offered the choice of numbers. Very low numbers, those easily remembered because of the sequence, are usually preferred. In the good old days some city dwellers used licence plates having their phone number. It simplified life and avoided confusion.

It ran in my mind to choose number 666, but I wound up with 599 instead. But number 666 is much more interesting from the theological point of view, for it is mentioned in Rev. 13:18 as being the number of "The Beast", and referring to a man.

It is a curious fact that if you give the letter 'A' a specific numerical value, say 66.5, give 'B' the value of 99.5, 'C' 100.5, that the letters "Stalin" total up to 666. By manipulating the basic numerical value you can prove (?) that Malenkov (or Eisenhower) is "The Beast." In fact any name can be made to bear the number 666, whether Currie or Armstrong or Joe Blow. Domition fits in also, by the way.

Perhaps the phrase on the old car plates "Alberta Expires March 31" have had something to do with my trend of thought. Those words no longer appear, but people are wondering if the world's number is not just about up. U235, uranium with the explosive power, is the mystic and terrific number of our day. Some of the news about hydrogen bombs makes us wonder if H 1954 could eventually mean that the world expires. It is a sobering thought that while we go about the business of buying licence plates, new and terrible explosives are being tested.

Nevertheless, we must not in panic fear forget that the original power which locked up in the atom its enormous power was not The Beast, but God the Creator. These are days in which to think about the Power of God unto Salvation, for we are confronted by the Power of

WEDDINGS

ADMUSSEN - HERRING

A quiet wedding took place in the Olds United Church manse on March 18 at 1:30 p.m., when Helen Herring of Acme was united in marriage with Chris Admussen of Bergen. Rev. Miller of Olds performed the ceremony.

The bride was lovely in a blue-grey suit of wool gabardine, accented with pink and navy accessories. She wore a rose corsage and her only jewelry was matching pearl necklace and earrings, a gift of the groom.

Mrs. Vera Prohl attended her sister-in-law, wearing a grey suit with pink accessories and a carnation corsage.

Mr. Reg Admussen of Bergen attended the groom.

Following the ceremony a reception for 40 was held in the Phelan hotel banquet room in Olds. The room was tastefully decorated for the occasion, with pink and white streamers and spring flowers. Rev. Miller proposed the toast to the bride, to which the groom responded. Following this a lovely turkey dinner was served.

The same evening a wedding dance was held at the Bergen hall which was largely attended. The bride and groom were presented with a purse of silver as a token of friendship from those present. Immediately following the dance the happy couple left for a honeymoon, to be spent at Banff. On their return they will reside at Acme.

The population of India increases at the rate of five million a year. That means in three years that it has an increase equal to the population of Canada.

Man unto Destruction.

It is not mathematical calculation but spiritual might that brings us the answer. God has not given us the spirit of fear, but of courage and love and a sound mind.

Should We Have National Lotteries?

Should Canada have national lotteries? A recent survey asked the question of a group of citizens about the frequently suggested move. A large number of those answering were opposed to lotteries in any shape or form terming them a form of gambling. Those in favor said people are going to take a chance anyway so why not keep the money in Canada; that lack of uniformity and ambiguity in present laws and their enforcement needs clarification.

The latter group stressed strict supervision in any operation of lotteries. Many suggest the provinces should handle their own lotteries for provincial purposes, once federal approval is given. Some suggested that most of the "income" should be distributed as prize money the smaller portion going to such things as hospitals, medical research, scholarships and straight charitable purposes.

CHRISTIAN SCIENCE

How sickness and disability may be overcome by bringing thinking into accord with the truth of God and man through prayer will be the topic of Christian Science services Sunday. "Are Sin, Disease and Death Real?" is the subject of the Lesson-Sermon.

Selections to be read from the Bible include the account (Matthew 9) of Christ Jesus' raising of Jairo's daughter from the dead, his restoring of sight to the two blind men, and his healing of the "dumb man possessed with a devil."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following passages will be read: Jesus strips all disguise from error, when his teachings are fully understood. By parable and argument he explains the impossibility of good producing evil; and he also scientifically demonstrates this great fact, proving by what are wrongly called miracles, that sin, sickness and death are beliefs - illusive errors - which he could and did destroy (343:14). The Golden Text is from Jeremiah: "Heal me, O Lord, and I shall be healed; save me, and I shall be saved; for thou art my praise" (17:14).

AGRICULTURAL
SERVICE
BOARD
NOTES

W. K. Snyder
Field Supervisor

Be Sure of Clean Seed: With
spring seeding just around the
corner every farmer should be now
if not already done, prepare his
seed to go into the ground before
the rush starts. A sample of barley
taken from a seed drill in Alberta
last spring, contained the following
weeds per pound of grain:

856 wild oats, 358 wild buck-
wheat, 272 stinkweed, 224 ball mu-
stard, 156 lamb's quarters. This
may be an extreme example of
neglect of seed grain, says R. I.
Pharis, supervisor of crop improve-
ment, but survey results indicate
that too many farmers are content
to sow weed-infested seed grain.
Of 1119 samples taken from seed
drills last spring, 37.5% would not
even grade as seed and were re-
jected; only 33% of the samples
graded No. 1 seed, the minimum
standard for any farmer who cares
about the quality of seed he sows.

There are enough good cleaning
plants in the district to eliminate
the dirty seed problem if full ad-
vantage is taken of these facilities.
Make sure the seed that goes into
your ground is free of weeds. Also
that it is treated with a good fungi-
cide to prevent smut and other seed
borne diseases. These precautions
taken before seeding starts will go
a long ways in ensuring a good,
clean crop being harvested. Get
ready NOW!

Black Minds
Worst Race Evil

A black skin is a handicap to
a person only when the black
minds of white people deny a black
man has human rights.

A yellow skin is a detriment to
a yellow person only when the yellow
heart of a white man, who fears
his competition, deprives a yellow
man of his natural opportunities.

A racial or national inheritance
results in discrimination when an
envious, inferior person uses his
hatred to hurt a person of another
race or nationality who has earned
a superior place.

No difference in color, race or
nationality justifies the malevolence
of any human being towards
another. The moral law, which
provides that none can do any in-
jury to another without working
greater harm to himself, makes
everyone who is guilty of discrimi-
nation among men the victim of
his own black mind or yellow
heart.

Each individual with an evil
attitude toward his neighbor of dif-
ferent origin adds another to an
evil mass of men who work the
horrors of attempts to oppress or
exterminate other peoples. Adding
to the number of people of evil in-
fluence an individual who condones
or takes part in racial discrimina-
tion adds to the danger of creating
a society which is an unfit envi-
ronment for decent constructive
people.

MILK**

Milk rises high with athletes in training.
It's an abundant and economical source of
highly important food elements: protein that
builds, sustains and repairs body tissues;
calcium, the tooth and bone builder;
Vitamin A; and thiamine for healthy nerves.

**Eat protein foods

Sports College has made repeated
tests on the value of protein for
physically active people. We find
that athletes getting adequate
amounts of milk and other dairy

2) encounter fewer and briefer

WEDDINGS

FULKERTH — DUPONT
A pretty wedding was solemnized recently at St. Stephen's Church, Olds, when Rev. E. A. Forsyth united in marriage, Miss Emilie Marie Dupont, youngest daughter of Mr. and Mrs. Emil Dupont, and Mr. Raymond Russell Fulketh, all of Didsbury.

The bride, who was given in marriage by her father, wore an ankle-length gown of white sculptured nylon designed with lily point sleeves and a full pleated skirt. Her fingertip chapel veil, edged with lace, fell from a pearl coronet. Her only ornament was a necklace of pearls, a gift of the bridegroom. She carried a bouquet of red roses.

Mrs. Anna Bernard and Mrs. Jack Richardson, sister of the bride, were her attendants. The former wore a blue triple sheer gown with matching shoulder-length veil, and carried a bouquet of pink carnations. Mrs. Richardson wore a pink triple sheer gown, complemented by a lace jacket, with matching length veil, and carried a bouquet of Ko-Ko-Mo carnations.

The groom was attended by his cousin, Bob Fulketh, and the ushers were Emil Dupont and Bernie Fulketh.

During the signing of the register Dennis Geddes sang "Ave Maria." A reception for 60 was held at the Legion hall in Olds. Rev. E. A. Forsyth proposed the bridal toast. Out-of-town guests and relatives were: Mr. J. Outhier and Gloria, Mrs. P. Brownson and Mrs. D. Diggins, all of Calgary; Mr. and Mrs. Sam Desjardins of DeWinton, Mr. and Mrs. Arnold Geddes and Dennis of Red Deer.

For their honeymoon to Lethbridge, the bride and groom wore matching blue suits. The bride complemented her ensemble with white accessories and a corsage of white carnations.

Jackson W.I. March Meeting

The March meeting of the Jackson W.I. was held at the home of Mrs. L. Hildebrandt with 18 members and three visitors present.

Roll call was answered by naming a vegetable and preparing it for the table. It was decided to make a donation to the community chest.

Mrs. O. Paas gave the delegate report on the recent conference held at Drumheller.

A very interesting and educational demonstration of the Elma sewing machine was given by Mrs. L. Vogel. The five-minute talk was held by Mrs. W. Owens, who chose the Thull Air Base as her topic. The "bit of fun" was conducted by Mrs. L. Hildebrandt.

The next meeting will be at the home of Mrs. O. Paas, a jelly roll contest being the highlight of the day.

M.V.B.C. NEWS

Remember! Don't fail to come! Marlene Sharnan, piano major in the music department of Mountain View Bible College, and Franklin L. Luak, director of the department, will give their concert in the United Missionary Church Thursday evening at 8 p.m. This will be worthwhile and all music lovers should be there to appreciate this very fine recital. Miss Sharnan will graduate with her diploma in piano this spring.

The choir was able to go to the Eckville district this last weekend in spite of the snow and bad roads. They report very successful concerts. This coming weekend they will tour the Edmonton district.

Last Thursday a number of students appeared in a vocal and piano recital held in the United Missionary Church. Most of the students were first year, and we felt they did quite well in the rendition of their selections. Some of them were recovering from rather bad colds, and hesitated taking their parts, but it is commendable that they did so. We expect that some of them will excel in voice and piano in the days to come.

Eugene Hooper from Wapato, Washington, was called home to attend the funeral services of his sister, Bonnie, who passed away after a lengthy illness. Our sincere sympathy is extended to Eugene. He will return to finish his work within a few days.

Only two more weeks and the College grounds will be deserted for all students will be home. One wonders at the rapid passing of life, but the busier one is the more quickly time goes its way. The summer will pass just as rapidly for those who remain on the campus to carry out the work of the summer. Baccalaureate services will be held April 18, and commencement on the 19th. Further announcement will appear in next week's issue.

College life is interesting indeed to the young people and to the faculty. We have appreciated each one and we know that they will enter into useful service during the summer months.

SPRINGSIDE NOTES

(From Our Own Correspondent)

Springside Ladies' Group met at the home of Mrs. H. Morton on Tuesday afternoon, March 30, with 15 members present.

The contest was won by Mrs. E. Nelson and the tea draw was won by Mrs. C. Roeth. The next meeting will be at the home of Mrs. V. Wrigglesworth on Tuesday, April 29th.

Because of the weather change, the card party was postponed until Thursday, April 15 at the school. Congratulations go to Mr. and Mrs. Don Peterson on the birth of a son.

Mr. and Mrs. Art Taylor and family of Acme were weekend guests of Mr. and Mrs. W. Collinge.
